Date : March 15, 1995

To : Stein Buer, Chair
Water Supply Technical Advisory Committee

From :  Steve Yaeger, Deputy Executive Officer
Bay-Delta Oversight Council

Subject: Option Descriptions

We are requesting your review of the attached revised option descriptions. This is the third of several sets of option descriptions for which we will be soliciting your comments over the next few weeks. Because of the large number of descriptions that are being refined and the timeframe allotted, we thought it advisable to transmit them in several sets. The "extended BDOC staff" is beginning to incorporate comments received to date, however, this set of descriptions does not reflect these initial comments due to the lead time necessary to prepare material for your review. We request that you give priority to review options developed by your Technical Advisory Committee to ensure that the description is consistent with the TAC's original intent. You may wish to have your staff review and comment on descriptions from other resource areas.

We would appreciate receiving your comments by close of business Thursday, March 23, 1995. This would assist us in revising additional option descriptions within the timeframe that we are allotted. If you foresee a problem meeting this target date or have any questions, please call me at 657-2666 or contact Victor Pacheco of BDOC staff at the same phone number.
